

Workshop programme, 23-24 August 2021: Digitisation and low-carbon energy transitions		
Time	Title	Speaker(s)
22nd August, 14:00-16:00	Pre-workshop art exhibition launch and informal networking event with students, faculty, friends of the Master programme in Energy, Environment and Society	Björn Lindberg, Anja Fremo, Oluf Langhelle and Siddharth Sareen
23rd August, 08:30-09:00	Opening remarks by the convenors of the Energy Anthropology Network	Katja Müller and Siddharth Sareen
09:00-10:30	Keynote I: Digital energy futures	Sarah Pink and Yolande Strengers
10:30-11:00	Tour de table over a coffee	Workshop participants
11:00-13:00	Paper session I: Situating digitisation A solar off-grid software: The making of infrastructures, markets and consumers “beyond energy” Littering the city: Mobility, landscape and commons. The case of electric scooters Connecting and disconnecting with European renewable energy models: Speculating on energy transitions in Hokkaido Digital dreaming: Renovating home with media and ICTs in Australia	Eva Riedke Zane Datava, Thomas Moe Skjølsvold, Marius Korsnes Emile St-Pierre Aggeliki Aggeli and Mette Mechlenborg
13:00-14:00	Lunch at the Norwegian Petroleum Museum	
14:00-15:30	Paper session II: Realising imaginaries Future figurations through carbon: Politics of oil and gas in Stavanger A new reflexive turn: Glitches, carbon footprints, and streaming videos in visual anthropology The hidden energies of work digitization: a view from France through the use of coworking spaces	Anne-Sofie Lautrup Soerensen Darcie DeAngelo Nathalie Ortar, Aurore Flipo
15:30-17:00	Artist tour of the exhibition ‘Just mobility transitions: Imaginaries of the Norwegian Bus Users’ Association’	Margrethe Brekke and Karin Coenen
17:00-19:00	Dinner in downtown Stavanger	Venue TBC

19:00-20:30	Just Mobility Transitions Network Roundtable: Just mobility transitions for Norwegian cities	Lars Coenen, Håvard Haarstad, Daniele Müller-Eie and more
24th August, 08:30-09:00	Taking stock of the book timeline and coherence	Siddharth Sareen and Katja Müller
09:00-10:30	<i>Keynote II: Mobility justice and transitions to urban electric vehicles</i>	Thomas Birtchnell, Theresa Harada and Gordon Waitt
10:30-11:00	Coffee break	
11:00-13:00	<i>Paper session III: Conceptualising transitions</i> The geopolitical implications of digitalization in the low-carbon energy transition: Germany, the USA and China Virtual linkages in socio-technical niche formation Digitization of renewable energy, social changes and commons The digital ethics of pay-as-you-go energy systems (<i>not for inclusion in the edited book from the workshop</i>)	Shengqing Zhang Tobias Reinauer and Ulrich Elmer Hansen Georgakopoulos Christos Tash Perros and Julia Tomei
13:00-14:00	Lunch at the Norwegian Petroleum Museum	
14:00-15:00	<i>Closing panel discussion: Engaging action</i> Panel discussion with members of the ROLES project on 'Responsive Organising for Low Emission Societies': <ul style="list-style-type: none"> - Solar energy transitions in Brighton - Smart electric meter rollout in Trento - Mobility transitions in Bergen 	Adrian Smith et al. Sonia Gantioler et al. Siddharth Sareen et al.
15:00-19:00	Time to explore the Norwegian Petroleum Museum and socialise in Stavanger, open plans for dinner and drinks	
Note	Participants without a paper (open to more in-person participants at the Norwegian Petroleum Museum)	Andrea Behrends, Asta Vonderau and Caroline Salling
